SKF's Learning Center project enrolls children ages 4 years to 12 years, provides free of cost primary level education and prepares them to successfully transition to mainstream public and private schools.

SKF USA has provided donation funds for educational grooming for under privileged street children in Pakistan since 2018. Between 30 to 40 children in 7 different groups (i.e., Play group, Nursey, and 1<sup>st</sup> to 5<sup>th</sup> level) based on their age and their learning ability have received basic primary level education. When a child successfully completes either 4<sup>th</sup> level or 5<sup>th</sup> level curriculum, they join SKF USA's "*Raising Star Scholarship Program*". Under the scholarship program 2 to 3 children each year transition into mainstream local public or private primary schools. The scholarship covers all the expenses at the school i.e., admission fee, monthly school fees, school uniforms, books, stationary and any other expenses related to the school program, including pocket money for their daily snacks. Bi-annually progress review is conducted on each child in the scholarship program based on class attendance, overall achievement, and exam results at the school.
