

STREET KIDS RISING STAR SCHOLARSHIP STUDENTS 2023-2024 Cohort 5

SKF's Raising Star Scholarship program is for children that transition from SKF's educational learning center to a regular primary school program. SKF children are assessed based on their performance in both the academic syllabus taught at the SKF center and their overall learning achievements in the 2 to 3 years being a student at the SKF Learning Center.

The financial scholarship given to the children covers all the expenses required for the student to attend a regular school program (admission fees, monthly fees, uniforms, books, stationary, snack money, exam fee, trips etc.)

For the academic year 2023-2024, a total of **11 students** got selected to transition from SKRSF Learning Center to a private local school and to become part of **Cohort 5 of "SKF's Rising Star Scholarship Program"**

Each of the student was given new uniform, shoes, school bag, books, copies, stationary. Excited and full of smiles the children began their schooling or the new academic year 2023-2024.

These 11 children joined the "12 SKF's Rising Star Scholarship Students" from cohorts 1, 2, 3 and 4, making the total of **23 students** who have successfully transitioned from SKF Learning Center and are attending a regular school program and getting the education they deserved!

2020-2023 RISING STAR STUDENTS
